TABLES.

TABLE I.

Area, Houses, and Population.

REMARKS.

The arrangement of districts is the same as that adopted in 1881, except that the Plains and Hills portions of the Garo Hills are no longer shown separately. They were shown separately on the previous occasion for purposes of comparison with the Census figures of 1872, when the Plains portion was enumerated as part of the Goalpara district.

The Lushai population is shown in two parts :—(a) Civil and Military, consisting of the Civil and Military Establishments and their followers at Aijal and Changsil, &c., who were actually censused ; and (b) the indigenous population, for which an estimate was framed by the Political Officer. This estimate was based on the ascertained number of villages and houses, and the assumption that on an average five persons occupied each house.

IMPERIAL TABLE I.

Area, Houses, and Population.

| DISTRICT. | Area in square miles. | NUMBER OF TOWNS AND VILLAGES. | | | OCCUPIED HOUSES. | | | POPULATION. | | |

TABLE II.

Variation in the enumerated Population since last Census.

REMARKS.

The difference between the figures for the 1881 population of Cachar Plains and North Cachar as here shown and as returned in the 1881 Census Report is due to the fact that on that occasion a total population of 4,313 (males 2,228 and females 2,085) belonging to "Cachar Plains" was included in the return for "Cachar Hills." At this Census the figures for "North Cachar" are for the population inhabiting the North Cachar subdivision only, and the 1881 return has been adjusted accordingly for purposes of comparison.

The boundaries between Nowgong and the Naga Hills and Khasi and Jaintia Hills districts have been modified since 1881, but enquiry has failed to elicit the exact effect of these interchanges of area. So far as the Nowgong-Naga Hills boundary is concerned, it would seem that the result of the alterations has been to leave the population much as it was before; but in the case of the rectification of the boundary between Nowgong and the Khasi and Jaintia Hills, it appears that the net result has been an addition to the population of Nowgong at the expense of the last-mentioned district. As all the villages affected by the Notification could not be traced, and exact figures could not, therefore, be given, no change in the 1881 population of these districts has been made in the body of this Table. Roughly speaking, however, it may be assumed that the 1881 population of the district of Nowgong as now constituted was more, and that of the Khasi and Jaintia Hills less, by 1,566 (males 756, females 810) than has been shown in the Table.

TABLE III.

Towns and Villages classified by Population.

REMARKS.

In some cases, villages and hamlets were included in the same Census blocks with other villages, either because, though bearing separate names, they really formed part of the same village or because they were too small to deserve separate enumeration. As it was impossible to separate the figures for villages thus joined together, each of the groups of amalgamated villages has been treated as one village in this Table. The actual number of villages in each district is therefore larger than that shown in the Table, the excess being as follows:

| | | | | | | |
|---------------------------|-----|-----|-----|-----|-----|-------|
| In Cachar | ... | ... | ... | ... | ... | 8 |
| „ Sylhet | ... | ... | ... | ... | ... | 3,314 |
| „ Goalpara | ... | ... | ... | ... | ... | 618 |
| „ Kamrup | ... | ... | ... | ... | ... | 560 |
| „ Darrang | ... | ... | ... | ... | ... | 423 |
| „ Nowgong | ... | ... | ... | ... | ... | 467 |
| „ Sibsagar | ... | ... | ... | ... | ... | 450 |
| „ Lakhimpur | ... | ... | ... | ... | ... | 613 |
| „ Khasi and Jaintia Hills | ... | ... | ... | ... | ... | 394 |
| „ Garo Hills | ... | ... | ... | ... | ... | 2 |

The great majority of the villages thus amalgamated consists of *páras*, which are really outlying hamlets rather than separate villages.

TABLE IV.

Towns according to Population compared with the preceding Census.

REMARKS.

The standard definition of a town for census purposes is "a place the population of which is not less than 5,000, or which is under the operation of some Municipal Act." The following places do not fall under this definition, but are shown as towns because they are sadar or subdivisional headquarters, and their population is urban :—Karinganj, Maulvi Bazar, Tezpur, Nowgong, Kohima.

In Barpeta, three villages with a population of 2,426 (males 1,186, females 1,240) have been excluded from municipal limits since 1881, and the figures returned on that occasion have been reduced accordingly.

In Sibsagar, a population of 1,285 (males 640, females 645) has been deducted from the figures returned in 1881, as a portion of the Nagar *mahál* rauza with this population has since been excluded from this station.

TABLE IV.

Towns according to Population compared with the preceding Census.

| TOWNS. | District. | Municipality, Suburbs, or Cantonment. | TOTAL POPULATION. | | | MALES. | | | FEMALES. | | | NOTES. |

REMARKS.

The difference between the population of the hill districts and the total population as shown in the preceding tables, and in this and subsequent tables, is due to the omission in the latter of a population of 41,590 in North Lushai, for which details regarding age, civil condition, &c., are not available.

| TABLE XVA — <i>LEPERS, BY CASTE, TRIBE, OR RACE</i> . | 170 |

REMARKS

The castes, &c., are classed in these tables according to traditional occupation. An Index to the system of classification adopted will be found on the title page of the Caste Table (page 177 below). To economise space, details have been given for the main divisions only, that is to say for the Surma and Brahmaputra Valleys and Hill Districts. The figures for individual districts are, however, available in manuscript.
